

National Military Standard Array Microwave Ceramic Chip Capacitors

I. Features

- General specification: GJB2442-2021;
- Detail specification: ZZR-Q/TJKJ20008-2019, CTK1101SA array-type single-layer chip ceramic fixed capacitor with failure-rate level;
- Standard number: JLCH61020095;
- Easy to mount;
- Shorter lead length and high performance in IC assembly;
- Low assembly complexity and low cost.

II. Product Coding Rules

The coding rules are the same as those for the national military standard general-purpose microwave ceramic chip capacitor above.

III. Representative Models of National Military Standard Array Microwave Ceramic Chip Capacitors

Model Specification	nominal capacitance (pF)	allowable deviation (code)	Features	rated voltage (V)
CTK1101SA30	70	K, M	BY	50
CTK1101SA30	75	K, M	BY	50
CTK1101SA30	82	K, M	BY	50
CTK1101SA30	91	K, M	BY	50
CTK1101SA30	100	K, M	BY	50
CTK1101SA30	110	K, M	BY	50
CTK1101SA30	120	K, M	BY	50
CTK1101SA30	130	K, M	BY	50
CTK1101SA30	150	K, M	BY	50
CTK1101SA30	160	K, M	BY	50
CTK1101SA30	180	K, M	BY	50
CTK1101SA30	200	K, M	BY	50
